INVITATION

Welcome

On behalf of the **Austrian Society of Nuclear Medicine & Theranostics (OGNT)** and the **Congress Committee** we have the pleasure of inviting you to Bad Ischl, located in the heart of Austria

Under the patronage of our **Congress Presidents, Irene Burger**, Kantonsspital Baden and Professor of Practice at ETH Zurich, and **Clemens Decristoforo**, radiochemist and Professor at Medical University of Innsbruck, we have designed a **stimulating and forward-looking scientific programme**. Selected sessions will once again venture beyond conventional perspectives and encourage lively discussion.

Participants can look forward to **inspiring lectures** delivered by internationally renowned experts. Alongside comprehensive clinical updates, the programme will highlight recent advances in translational and basic research and encourage interdisciplinary exchange.

We warmly encourage our early-career colleagues to actively contribute by presenting their latest research findings. The **pre-congress workshop** will offer an excellent opportunity to deepen practical skills and exchange ideas in a focused setting.

Set against the scenic backdrop of **Bad Ischl**, our International Symposium will once again provide the ideal atmosphere for scientific exchange. Join us to **combine high-level education with personal interaction** – reconnect with long-standing colleagues and establish new professional friendships.

Michael Gabriel,
Linz,
President OGNT

Irene Burger,
Zurich,
Congress President

Clemens Decristoforo,
Innsbruck,
Congress President

Alexander Haug,
Vienna,
Congress Chair

TOPICS

- » Future developments in radionuclide therapy
- » Radionuclide therapy in prostate cancer
- » Dementia
- » Technical developments
- » Perspective of young professionals
- » Developments in thyroid diseases

FREE PAPERS & POSTERS ABSTRACT DEADLINE – JUNE 2, 2026

Notification of acceptance: June 30, 2026.

LANGUAGE

International Congress in English.
